JULY 2019

❖ **2019 Spring Storms Wreak Widespread Damage:** *Heavy rainfall and winds in excess of 70mph have left downed trees throughout Chambers Landing.*

On June 8, a swift moving storm swept through Chambers Landing leaving trees uprooted from the already saturated ground. Other trees were snapped in two from the straight line winds, as well as large limbs and scattered debris.

❖ **Pictures of Damage are Available:** *For those property owners that live outside the immediate area, you may request photos of your lot(s) Please text your name and lot number(s) to (903)229-1065. Photos and information will be sent via text to the number received.*

❖ **Tree Removal Contractors:** *For your convenience we have listed the following contractors who have been used by members of the community:*

Juan Gonzales
JC's Mowing & Tree Removal Service
903-422-5980

C & J Tree Experts
(903) 229-7078

(903) 879-3477
Jesse Tree Service

❖ **Trees and Debris Must Be Cleaned up by JULY 31, 2019:** *Due to the wet conditions experienced during June, the deadline for clean-up has been extended through July. Please make sure all work has been completed before **July 31st**.*

STORM DAMAGE CONTINUED
Extensive Structural Damage to Chambers Landing Dock

The high winds and waves from continued severe spring storms caused additional damage to the dock. Reconstruction of the original damage sustained last fall was completed and held up to the strong winds and waves.

Due to the construction, parts of the dock will be closed during the July 4th weekend. Please use extreme caution. The boat ramp will be open.
